

Turning industrial friction into smooth operations

Holistic solutions that make your operations run *smoother, cleaner, and smarter.*

Your Operations. Our Priority.

About Johan Holistic Process Expert

With 18 years of experience in industrial solutions, Johan has helped businesses optimize processes, reduce friction, and implement practical solutions that last. From process assessment to equipment supply, Johan identifies what most people miss and delivers solutions that **improve efficiency, hygiene, and productivity.**

Core Strengths & Why Clients Work With Johan:

- 1** **Deep understanding** of industrial operations and processes
- 2** **Trusted network of certified partners** for automation and equipment solutions
- 3** **Holistic approach:** Identify friction, design solutions, implement efficiently
- 4** **Focus on long-term value** over cheapest options
- 5** **Proven track record** with major clients in food, beverage, pharmaceutical, mining, and logistics industries

Certifications & Training:

Johan's expertise is backed by continuous professional development:

- 1** **Industrial High-Pressure Cleaning Systems – Application & Solutions**
- 2** **Industrial Chemical Handling & Application Fundamentals**
- 3** **Abrasive Technology & Surface Preparation**
- 4** **Industrial Automation Solutions – Commercial Fundamentals**
- 5** **Technical Sales & Business Development for Industrial Markets**
- 6** **Key Account Management & Strategic Client Engagement**

Integrated Industrial Solutions

Delivering practical solutions that make industrial operations smoother, safer, and more efficient. Our approach is simple:

Spot the problems, deliver the solutions and eliminate friction.

Industrial Automation

Providing solutions for process control, quality systems, and end-of-line packing, partnering with certified experts to serve the food, beverage, and pharmaceutical industries.

Industrial Cleaning Systems

From high-pressure cleaning and water jet systems to floor scrubbers and sweepers, we supply everything you need to keep your operations spotless. We also provide bulk chemicals for wash bays and industrial cleaning needs.

Industrial Equipment

Offering electric forklifts and front-end loaders, as well as diesel dual-purpose loaders with interchangeable hook and fork functionality. These are ideal for mining, processing plants, and heavy industrial operations.

Industrial Consumables

Supplying bulk paper products, including items like toilet rolls, garage rolls, auto-cut, and various bulk paper options, as well as facility essentials for wash bays, logistics hubs, and industrial plants.

Industries Served

Food & Beverage

Pharmaceutical

Logistics & Warehousing

Mining & Processing Plants

Manufacturing & Industrial Facilities

Chemical & Bulk Processing

Proven Results. Trusted Solutions.

Key Achievements:

- 1** Established new industrial sales division generating R19M in year one
- 2** Grew revenue to R38M in three years
- 3** Top National Sales Performer in the Industrial Abrasives Sector
- 4** Secured multi-year industrial contracts and tenders
- 5** Delivered major industrial equipment & process projects

Featured Client Projects:

- 1** **Gibela** – Undercarriage hot water high-pressure wash bay
- 2** **Transalloy** – Industrial cleaning equipment supply
- 3** **Engen Petroleum** – Truck wash contract supply & operational support
